DETAILED ACTION

REMARKS:

Amendments "B and C" received on 10/27/03 and 12/10/03 have been entered as paper numbers 11 and 12 in this application.

The indicated allowability of claims 1, 5, 18 and 22 are withdrawn in view of the newly discovered reference(s) to Kanazawa (5,446,344) [newly cited]. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 5, 18 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Kanazawa (5,446,344) [newly cited].

Kanazawa in figures 7-12 teaches a method of driving a plasma display device applying a first voltage between sustain discharge electrodes so as to perform discharge in a display cell, comprising a reset operation including at least a full write operation, an address operation of turning on/off the display cell in accordance with display data; and a sustain discharge operation of performing sustain discharge between the sustain discharge electrodes; and before the reset operation, a removal operation of removing wall charges formed, by the sustain discharge performed between the sustain discharge electrodes, on

the address electrode for selecting the display cell (see abstract, and column 20, lines 18-31).

Allowable Subject Matter

3. Claims 6-17 and 23-24 are allowed.
4. Claims 2-4 and 19-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
